Education

Georgia Institute of Technology

Bachelor of Science in Computer Science (Intelligence and Systems Architecture Threads)

Atlanta, GA

Aug 2024 – May 2028

- **GPA:** 3.9 / 4.0
- **Relevant Coursework:** Operating Systems, Compilers and Interpreters, Machine Learning, Data Structures and Algorithms, Systems and Networks, Objects & Design, Algorithmic Design, Probability & Statistics, Discrete Math
- **Activities:** Trading Club (Exec), AI @ GT, Hexlabs, GROWER Lab, Ganesh Lab, Taal Tadka (President)

Experience

Databricks

Software Engineer Intern

May 2026 – Aug 2026

Bellevue, WA

- Incoming Summer 2026 – Lakeflow Designer

Millennium

Meet Millennium Participant

April 2026

Miami, FL

- 1 of 25 students selected for Miami's technology track.

Microsoft

Product Fellow

Sep 2025 – Jan 2026

Atlanta, GA

- Developed a full-stack agentic incident management system, estimated to save \$500K annually in developer effort.
- Trained a TF-IDF + Logistic Regression pipeline to route incidents to the correct team with 85%+ accuracy.
- Contextualized tickets by surfacing similar historical cases and relevant resources, reducing triage time by 40%.

Amazon

Software Development Engineer Intern

May 2025 – Aug 2025

Tempe, AZ

- Built internal tooling to detect and resolve conflicting custom product offers, cutting error diagnosis time by 20%.
- Raised Buyer Preview usage by 22% by building a full-stack feature for sellers to download a sample fulfillment file.
- Sped up deployment pipeline by 30% through optimization of Seller Central frontend and backend test suites.

Vijay Ganesh Lab

Undergraduate Researcher

Apr 2025 – Present

Atlanta, GA

- Integrating SAT Solver mechanisms with LLMs to enhance model reasoning and learning capabilities by 20%.
- Building a Pydantic AI multi-agent system to apply Conflict-Driven Clause Learning (CDCL) to reasoning models.
- Leading ablation studies across 5 model configurations to evaluate significance of our custom CDCL technique.

GROWER Lab

Data Engineer

Aug 2024 – Present

Atlanta, GA

- Evaluating ML and threshold-based methods to aggregate power outage data in collaboration with Sandia and ORNL.
- Leading research analyzing the impact of physical and cyber-attacks on US energy infrastructure across 50 variables.
- Building a dashboard to display GROWER power outage metrics (SAIDI, SAIFI) across hundreds of counties.

Projects

GT Marketplace | Typescript, ReactJS, Firebase, Python, ExpressJS, NodeJS, HTML/CSS

Apr 2025 – Present

- Built a campus marketplace for 200+ GT students, supporting listings, in-app messaging, and authentication.
- Integrated an AI-powered listing suggestion engine, achieving 80% pricing accuracy for user preferences.
- Implemented real-time messaging and a campus meet-up map, facilitating hundreds of buyer-seller transactions.

DeepQuote | C++, Python, PyBind, PyTorch, Gymnasium, Numpy, Stable-Baseline3

May 2025 – Dec 2025

- Built a high-frequency market simulator in C++, processing 10,000+ orders/sec with realistic microstructure.
- Designed an RL environment supporting 18-D state spaces, enabling strategy agent benchmarking with tracked PnL.
- Achieved 27% faster simulation throughput over pure Python by implementing order book engine in C++.

GT Chatbot | Python, NIM, Docker, ReactJS, PostgreSQL, Pgvector, Scrappy

Aug 2024 – May 2025

- Developed a platform with AI @ GT and NVIDIA to help prospective GT students query accurate institute info.
- Built a vector embedding pipeline using Scrappy, Python, and Pgvector to store and manage 100K vectors.
- Improved LLM accuracy by 37% by building out a RAG database, allowing students to get verified results.

Skills and Interests

Languages: Python, Java, C, C++, JavaScript, TypeScript, SQL, HTML, CSS, Assembly, Swift, R

Frameworks: Node.js, React.js, Express.js, FastAPI, Pydantic AI, LangChain, React Native, Flask, Spring Boot, Dagger

Software: Git, PyTorch, Transformers, Pandas, Scikit-Learn, PostgreSQL, Firebase, AWS, MongoDB, Docker, Kubernetes

Awards: Ohio Governor's Scholar, Hack OHI/O Winner, Presidential Gold Award, Presidential Undergrad Research Award

Interests: Basketball, Poker, Music, Travel, Cooking, Climbing, Chess
